

Astrace group enterprise manual

Basic Introduction

Group profile

Founded in 2003, the Group has always focused on the research and development, customization, brand, market operation and service guarantee. Relying on leading products, brands and services, it has become a whole industry chain group of film materials, providing in-depth solutions in the field of full function film care.

Market position

Astrace stands a leading market position in China.

3800000+

Serving more than 3.8 million car owners

2000+

Covering more than 2,000 stores nationwide

2000+

Trained more than 2000 professional film technicians

31+

Covering 31 provinces and regions

Global partners

Global strategic partners

圣戈班

行业地位:玻璃专家,金属膜工艺鼻祖

战略合作时间:2003年起至今

2020世界500强排名244位

EASTMAN

伊士曼(美国)

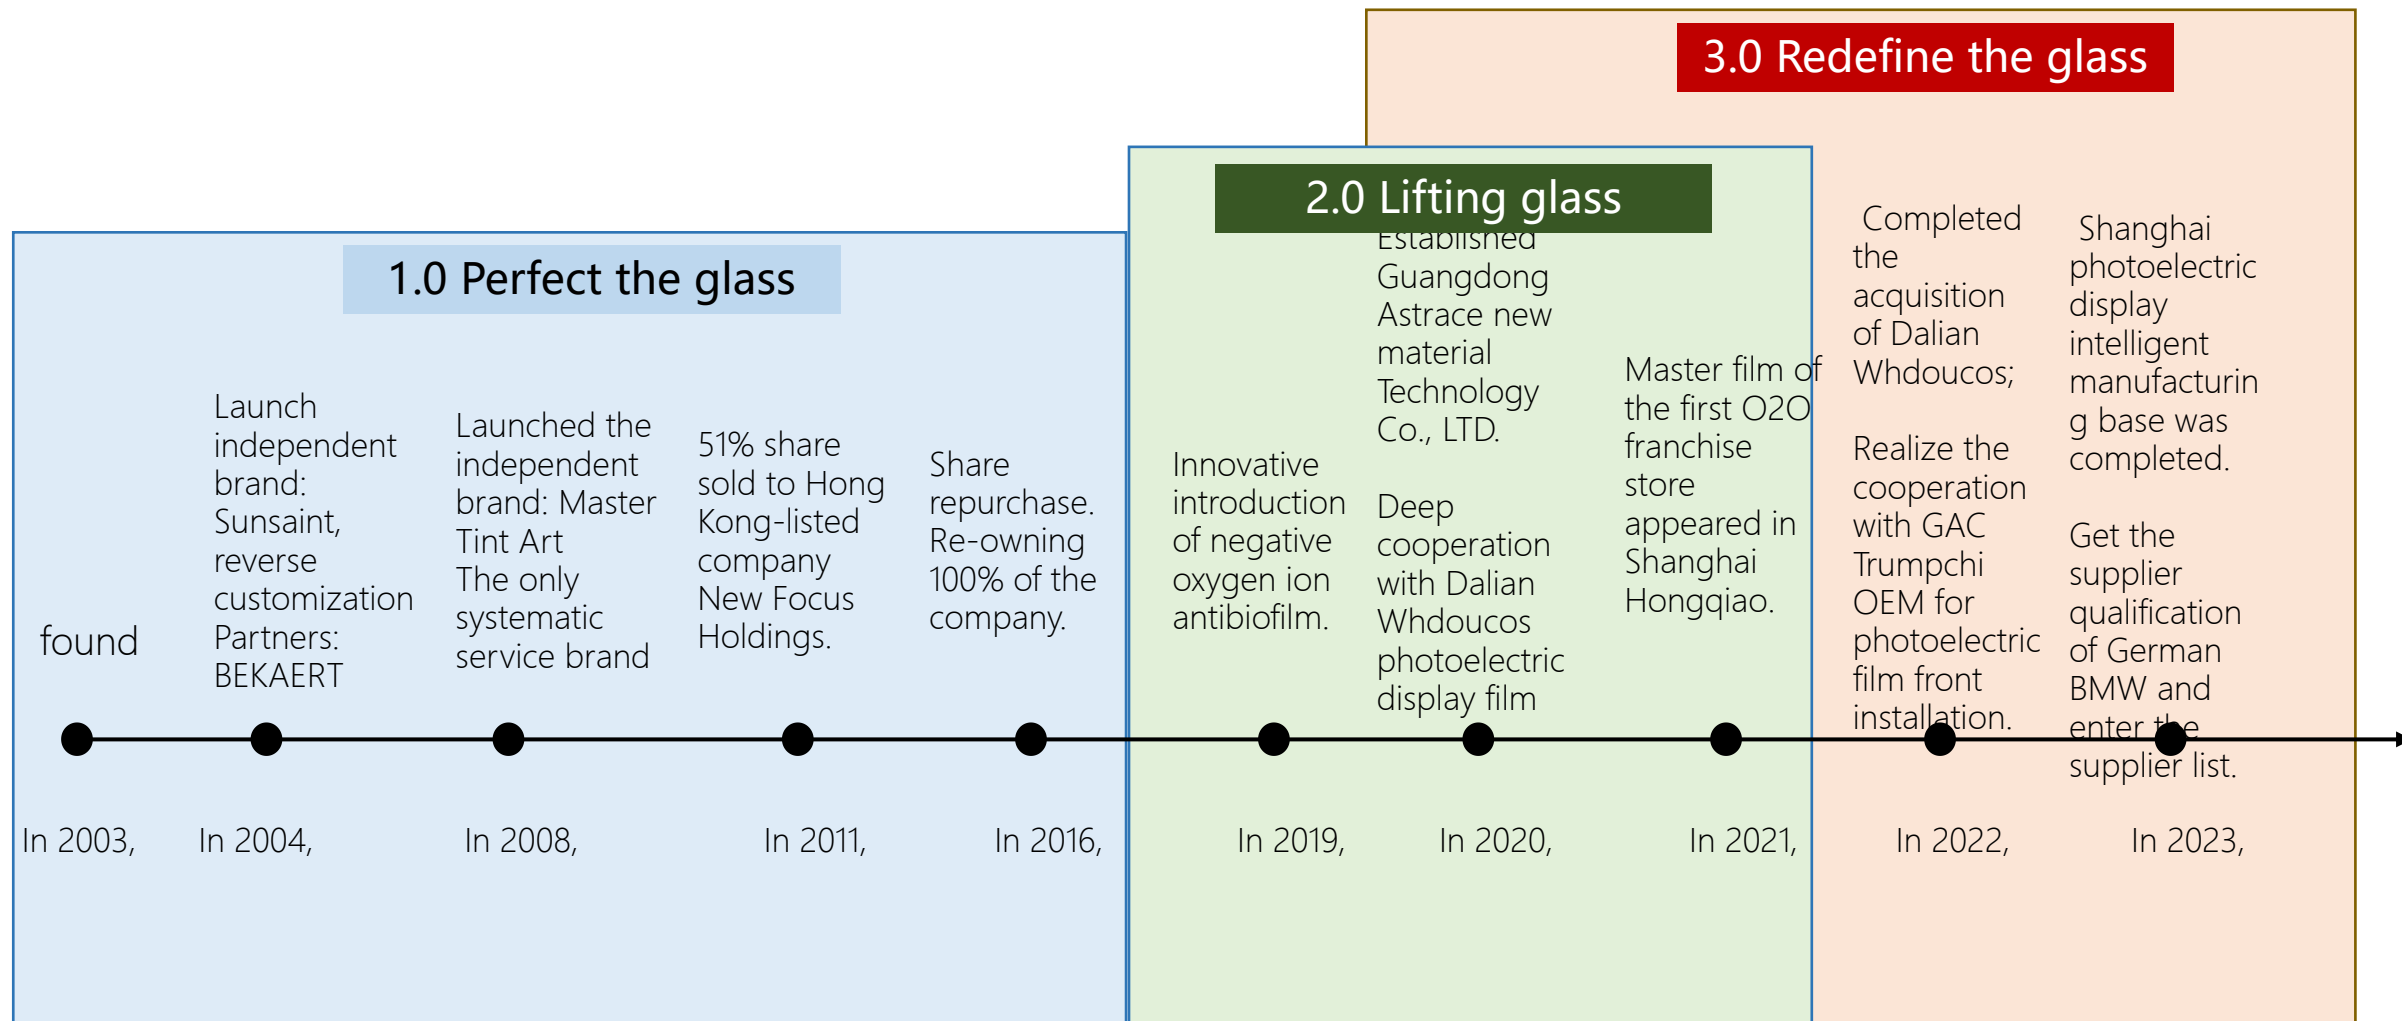

行业地位:全球最大窗膜工厂

战略合作时间:2010年起至今

2020美国500强排名343位

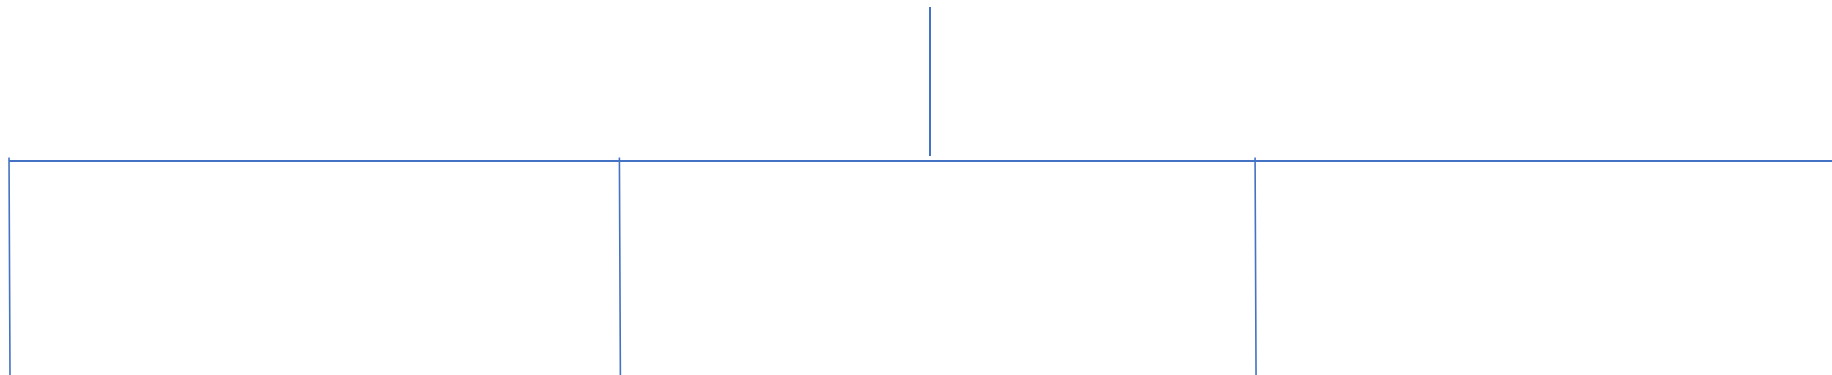

Enterprise process

Shanghai Astrace: Leading in innovation of film protection industry

- **High clear**
- **High heat insulation**
- **High stability**
- **Low reflective**
- **0 Pollution**

ONE

Top tech
Car window film

WINDOW
FUNCTION FILM

- TPU (aliphatic) optical grade
- Super yellow resistance
- high tenacity
- Scratch resistant
- stretch-proof
- Hard to puncture
- Super bright

TWO

**No fear of small
scratches, drive a new
car every day**
Paint protective film

PAINT
PROTECTION FILM

- Optical-grade TPU polymer transparent film
- Prevent small scratches
- Ripping film without residual glue
- Do not hurt the original paint

THREE

Standard car, unique you
Color Change film

COLOR-PAINTING
FILM

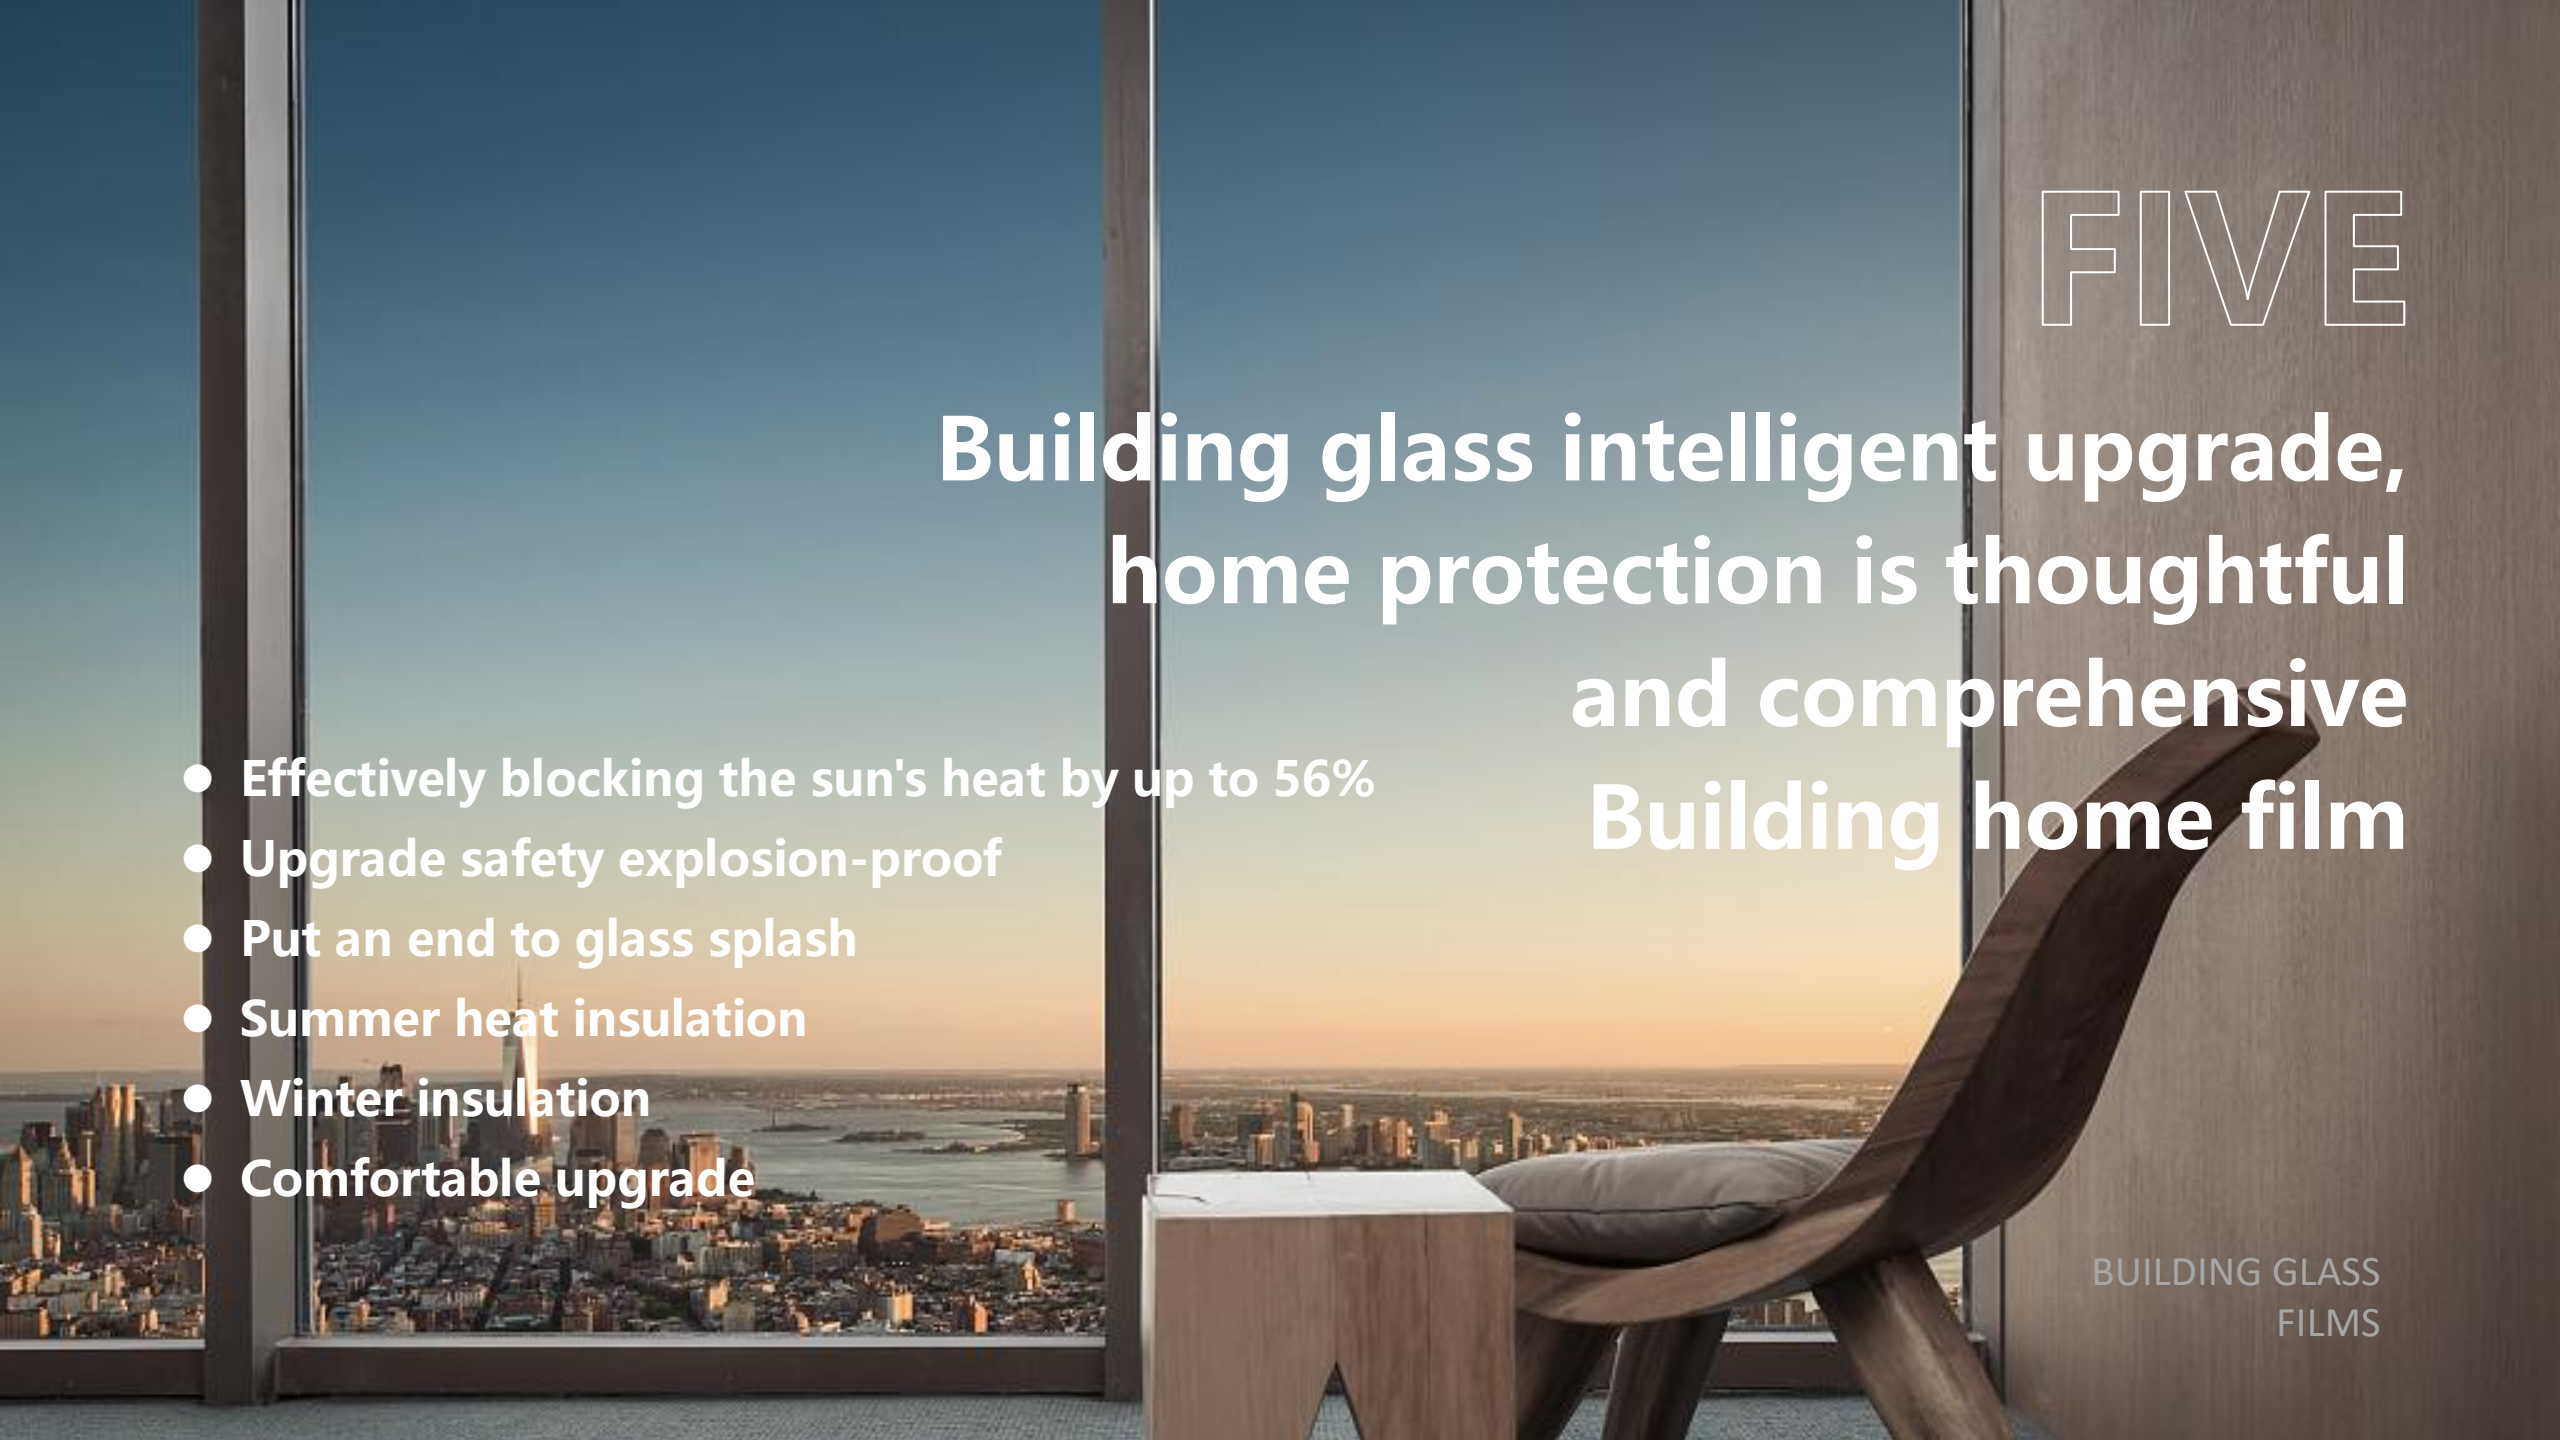

- Import high-end substrate
- Global Designer Resources
- 1000 + cutting-edge fashion design
- Prevent small scratches
- Ripping film without residual glue
- Do not hurt the original paint

FOUR

Color Changing+protection colored PPF

COLOUR PAINTED
FILM

FIVE

Building glass intelligent upgrade, home protection is thoughtful and comprehensive Building home film

- Effectively blocking the sun's heat by up to 56%
- Upgrade safety explosion-proof
- Put an end to glass splash
- Summer heat insulation
- Winter insulation
- Comfortable upgrade

BUILDING GLASS
FILMS

SIX

Make every piece of glass a high- definition display screen The SWD holographic transparent projection film

- Pass the vehicle regulation level certification
- Mature technology to achieve the scale of mass production
- The ICDT "Best Innovative Technology Award" Gold Award
- Cooperation with many world-class enterprises

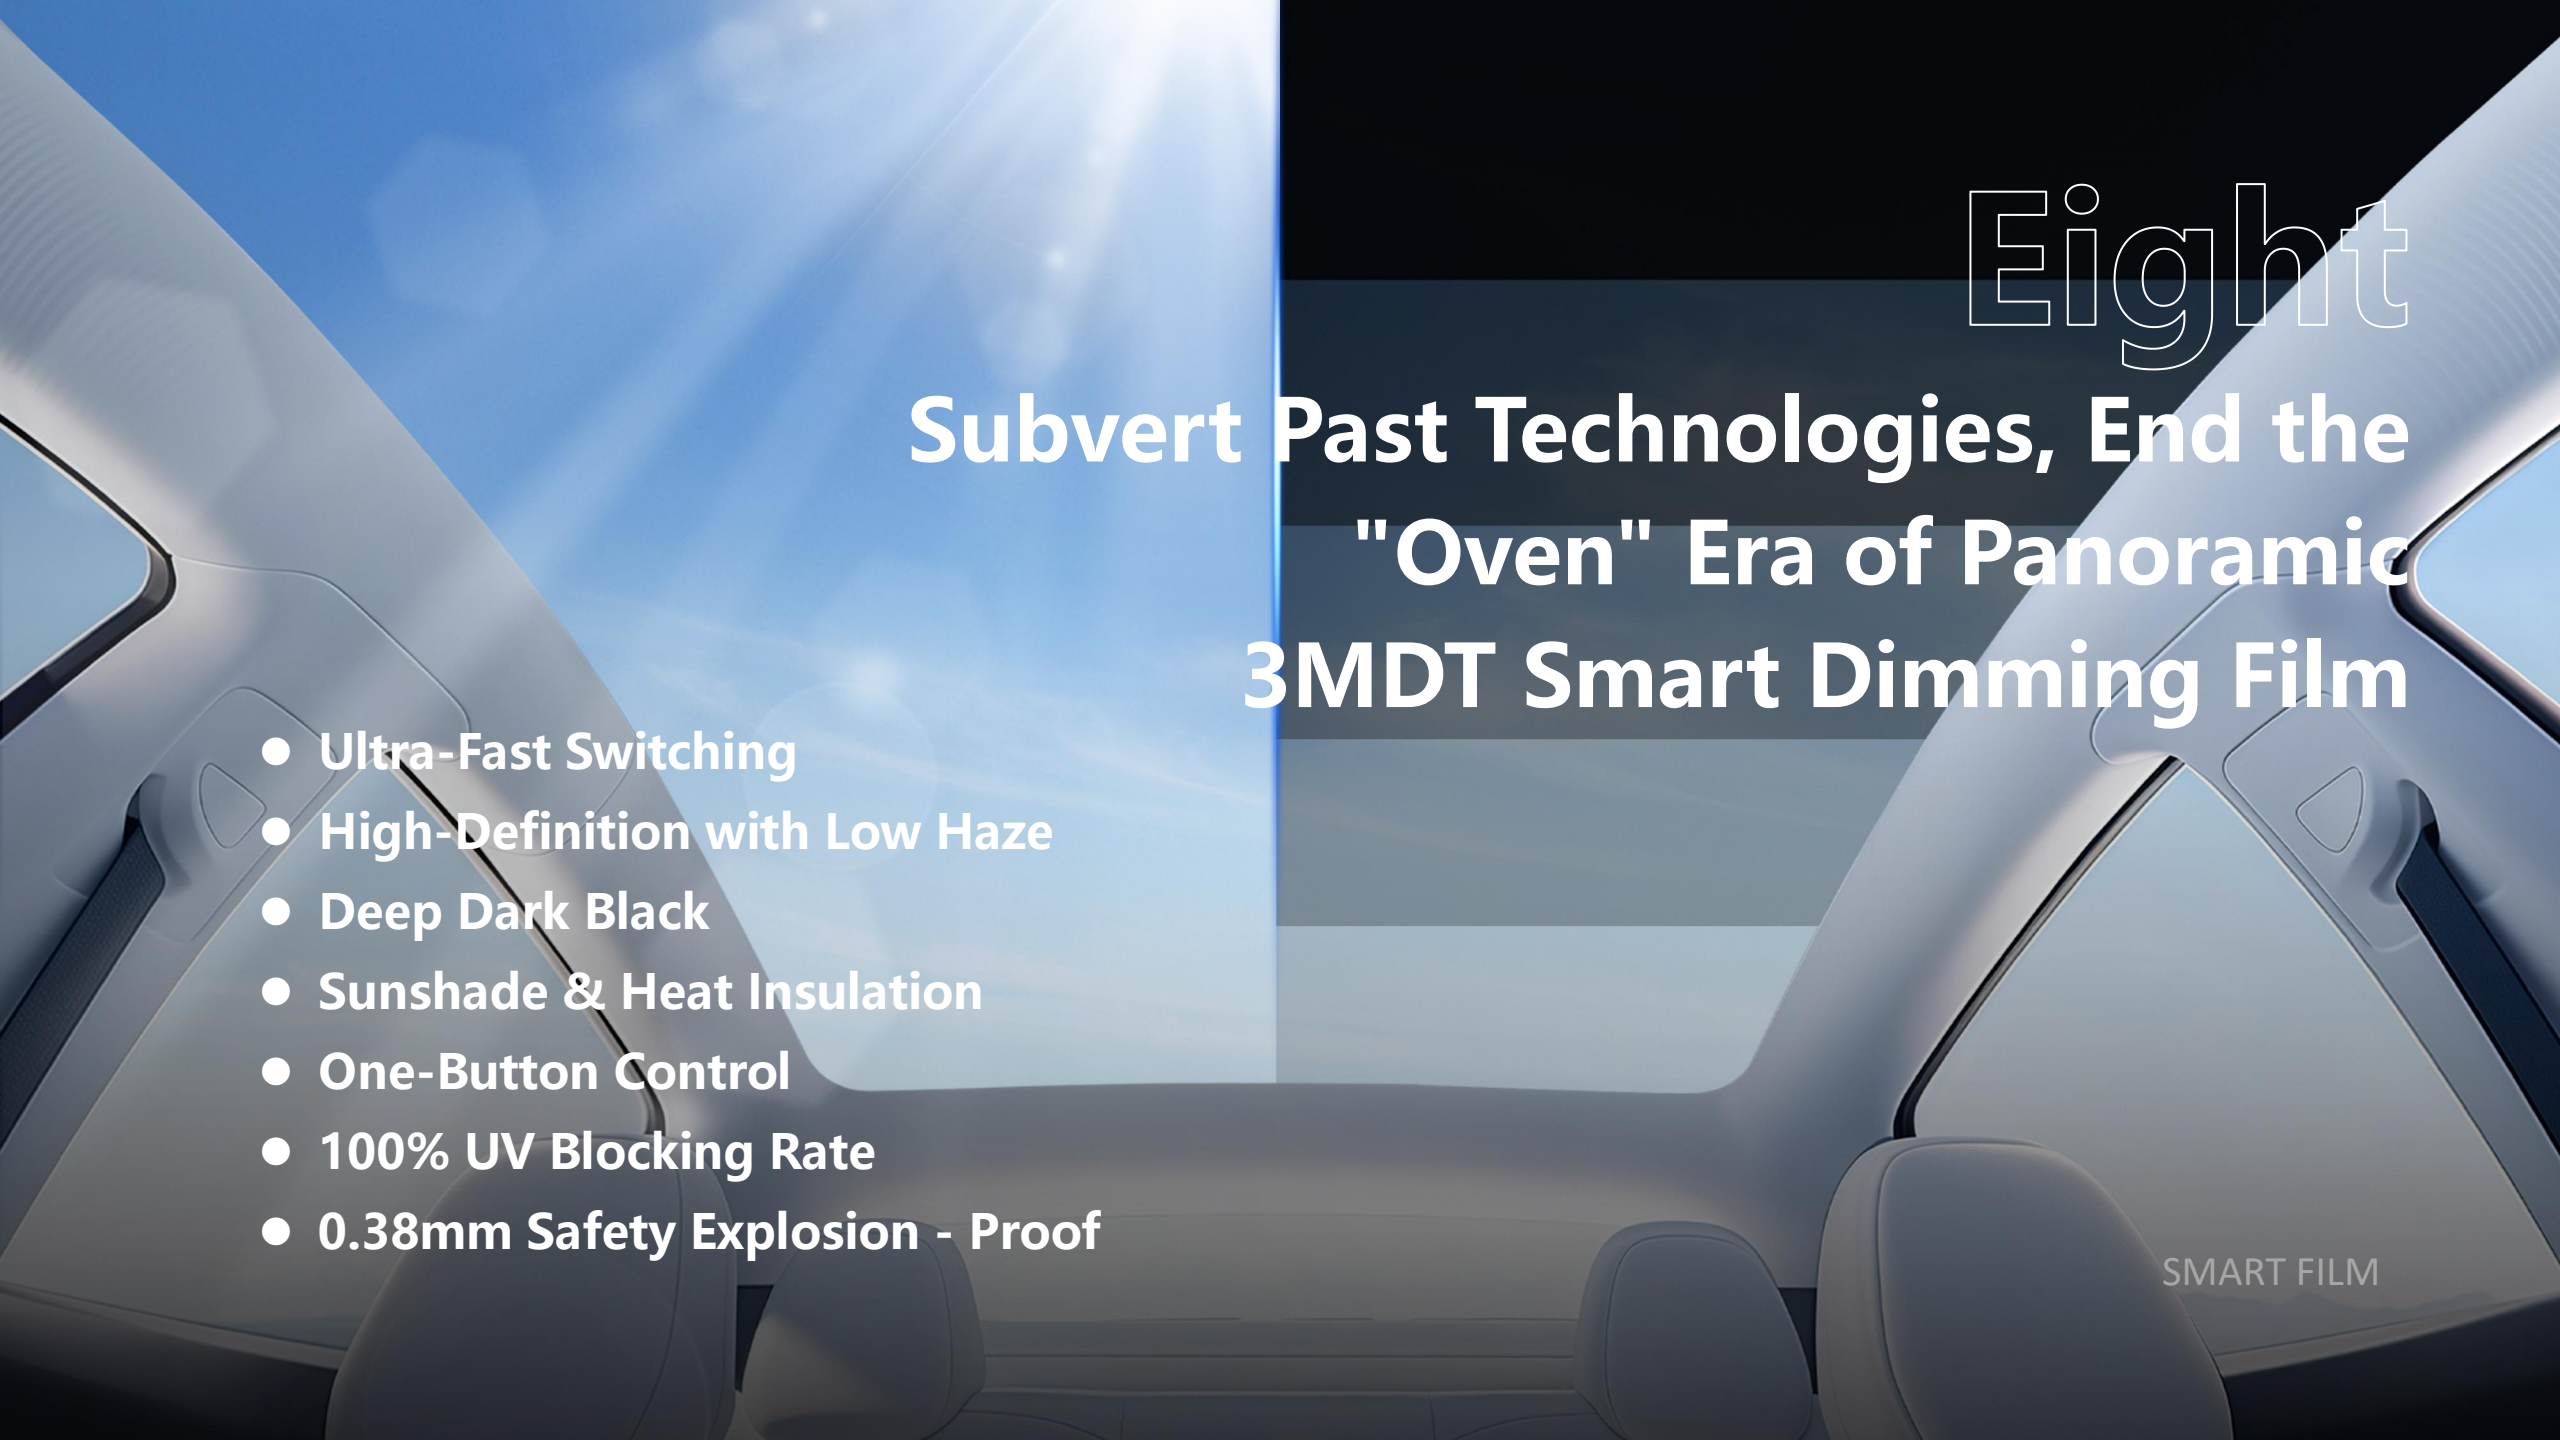

PHOTOELECTRIC INTELLIGENT
FILM

SEVEN

**Redefine the car sunroof and take
the vast starry sky into the car
OMTD, a photoelectric display Film**

- The latest two-color, mapping technique
- Personalized custom patterns
- Invisible during the day and shining at night
- High heat insulation
- Anti-glare, block ultraviolet rays
- Safety explosion-proof

STARRY SKY
SKYLIGHT

Eight

Subvert Past Technologies, End the "Oven" Era of Panoramic 3MDT Smart Dimming Film

- Ultra-Fast Switching
- High-Definition with Low Haze
- Deep Dark Black
- Sunshade & Heat Insulation
- One-Button Control
- 100% UV Blocking Rate
- 0.38mm Safety Explosion - Proof

SMART FILM

Two major production bases

Guangzhou Shantou

8 million m² annual output

01

Stick to innovation, research and development. Vigorously invest in the construction of independent factories. In terms of product category, it has expanded from the automobile window film to the construction of the whole film industry chain such as paint protective film, color changing film and building film, and reached the level of import substitution, achieving the leading quality.

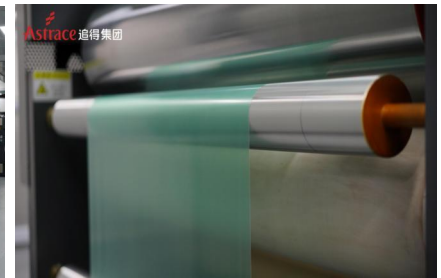

Two major production bases

Shanghai Qingpu OMTD manufacturing base

1 million m² annual output

Astrace aim at photoelectric display film new track, heavily in OMTD photoelectric display films research and development center and production equipment construction, automated four production lines, 1 million / m² annual output and "the world's first into the automobile factory function films manufacturers" milestone achievement, become the leading scale, leading technology, customer quality leading OMTD photoelectric film super factory.

certification systems

Four major certifications to ensure the quality:

IATF16949

ISO9001

ISO14001

ISO45001

Six major systems to ensure efficiency:

1

Project operation of the professional SaaS system

2

Transparent and mutual trust system for multi-party cooperation

3

Customer spearding marketing tools

4

intelligence Quotation system

5

Digital cutting system with data base

6

Warranty system

Core patented technology

It is currently
