RELIA HORSESHOE / EQUESTRIAN MANUFACTURING

Forged Steel & Aluminum Horseshoes

Wholesale and custom sourcing information for equestrian distributors, importers, farrier suppliers and brands.

Company	Brand	Location
Qingdao Relia Industries Co., Ltd.	Relia Horseshoe	Qingdao, Shandong, China

Horseshoe product range

Forged steel horseshoes	Multiple catalogue patterns. Confirm the exact model, material, dimensions, section, nail-hole layout, clips and finish.
Forged aluminum horseshoes / racing plates	Published models vary. Confirm the exact reference, dimensions, configuration and finish for the intended range.
Custom and OEM development	Drawings or reference samples can guide development. Shape, material, marking, finish and packaging are reviewed in the project brief; drawing-based designs may require tooling.

Model details shown on the official website are product-specific. Confirm the selected pattern and dimensions with the supplier before order approval.

How to specify a horseshoe order

A clear product brief helps the team review the correct catalogue reference, sample and order conditions.

01	**Identify the model** Share the catalogue reference, a product link, drawing or physical sample reference.
02	**Set the configuration** Specify material, size, front or hind pattern where relevant, section, nail-hole layout, clips, finish and any marking.
03	**Plan quantities and packing** List quantities by model and size, destination market, selling unit and any packaging or private-label requirements.
04	**Review sample and terms** Confirm sample feedback and the approved version. Project-specific minimum quantity, timing and delivery terms are discussed for the order.

Before confirming an order

Product specifications, minimum quantities, samples, lead times, packing and delivery terms are confirmed for the selected item and destination. A listed product family is not a guarantee of stock, compatibility or a fixed commercial term.
