ADAMTECH / SUPPLIER CAPABILITY

Felt lubrication gears and matching mounting shafts

Hangzhou Aden Technology Co., Ltd. supplies dry felt lubrication gears for suitable rack-and-pinion applications. Standard designs are available, and drawing-based manufacturing is supported after the interface and specification are reviewed.

Application illustration only - not a product photograph and not dimensional, compatibility or performance evidence.

WHAT WE CAN EVALUATE

- Felt lubrication gear supplied separately
- Matching mounting shaft supplied separately or as a set
- Existing standard designs, subject to specification confirmation
- Manufacture to a customer-released drawing
- Small trial requirements discussed after technical review
